Blast Record Number	Location Name	Monitoring Location			Direct Distance (m)	Vibration Readings (mm/sec)					Air overpressure (dB Lin)	Monitored By	Notes
		Eastings	Northings	Elevation (m)		<i>Longitudinal (L) PPV</i>	<i>Transverse (T) PPV</i>	<i>Vertical (V) PPV</i>	Maximum single plane PPV	Resultant PPV			

- Notes:
- All headings in normal text are essential
 - All headings in *italics and underlined* are desirable
 - The Blast Record Number for each record must correspond to a Blast Record Number detailed on the **Blasting Data Proforma**.
 - Enter the Monitoring Location Name. If the location is a repeatedly visited and fixed position this must correspond to a Monitoring Location detailed on the **Fixed Monitoring Location Proforma**.
 - If the location used is a 'one-off' enter 'MOBILE'
 - For Eastings, Northings and Level please give the co-ordinates for the monitoring location **only if the location has been detailed as 'MOBILE'**. If these details are not available then enter this distance as a Direct Distance (m) (coordinates are preferable to taped distances). (Please note, this does not refer to fixed monitoring locations whose co-ordinates should be entered on to the **Fixed Monitoring Location Proforma**).
 - If the location used has been detailed on the **Fixed Monitoring Locations Proforma**, then leave the Eastings, Northings, Level and Direct Distance columns, on this proforma blank
 - If the location is 'MOBILE' and an Easting, Northing and Level has been entered, leave the Direct Distance column on this proforma blank
 - If the location is 'MOBILE' and a Direct Distance has been entered, leave the Eastings, Northings and Level columns on this proforma blank
